HARMONIA DINING TABLE WITH ALIKOS CHAIR

Alikos refers to a deep, vibrant shade of crimson or scarlet found in desert vegetation, such as the Mallow flower and Claret Cup cactus. This color cleverly lines the underside of our elegant Alikos chair and Harmonia dining table. Together, inspire unity and connection, inviting you and your loved ones to gather around and share meaningful moments. With Harmonia as the centerpiece of your dining area, each meal becomes a celebration of togetherness.
